## FELL FACING FOEMEN

Officers at Cronstadt Credited With  
Splendid Courage.

## FOUGHT TILL KILLED

Captain Trudionoff, Who Is Among  
Those Slain at Cronstadt, Was  
In Sea of Japan Battle  
and Long In Water.

St. Petersburg, Aug. 3.—Officers at Cronstadt showed splendid courage, and all those killed fell fighting. Colonel Alexandroff received the mutineers with a revolver, and Captain Evroschinsky of the submarine miners, after a desperate struggle, was bayoneted by his assailants and his head split open with the butt end of a rifle. Rear Admiral Beclumscheff, who received many wounds, died. When the sailors mutinied the admiral immediately went out with his staff heedless of warnings and entered the barracks. Within a few seconds he and two captains were shot down.

The crowd of civilians who joined the mutineers included a large number of women. They were armed with rifles, revolvers and swords. One wounded captain was spared because he wore a St. George cross.

Captain Trudionoff, who was killed, fought in the battle of the Sea of Japan on one of the Russian ships which foundered. He was fourteen hours in the water before being picked up.

It has been ascertained the Yenissei regiment played a prominent part at Cronstadt, quelling a mutiny of sailors. The latter had broken into the arsenal, after overpowering the guards, and seized a quantity of arms. After firing several volleys the Yenissei regiment charged, driving out the mutineers, who fled into the streets pursued by the men of this regiment, who continued their rifle fire, to which the mutineers replied. Some shots were fired at Loyalists from houses. Many mutineers sought to escape from the town, but they were met by a hot fire and driven to the barracks, where they were surrounded. Attempt was made by a party of mutineers to capture harbor batteries, but it was repulsed by the fire of machine guns.

## NO SUBPOENA

John D. Rockefeller Not to Appear  
Before Chicago Grand Jury.

Chicago, Aug. 3.—John D. Rockefeller will not be served with a subpoena to appear before the grand jury, which will convene here Monday to investigate relations between the Standard Oil company and various railroads. This announcement was made after a conference between government officials, who declare that should Mr. Rockefeller testify it would be necessary to grant him immunity from prosecution, and this, it was claimed, was what the government wished to avoid.

With the late James Russell Lowell, particularly, he was on terms of intimate friendship, and he leaves a set of Lowell's books, each inscribed "To my dear friend," and a most interesting collection of letters. Mr. Hodson and Mr. Lowell kept up a correspondence after the latter left London.

## RIDDLED WITH SHOTS

Man at Memphis Meets His Death  
In Tragic Manner.

## SHOT DOWN AT POLLS

Controversy That Followed Election  
Brought About a Difficulty In  
Which Sanguinary Results  
Came About.

Memphis, Aug. 3.—One man was killed, another fatally wounded and a third injured in a fight in the polling place of the Fifteenth district at North Second street and the Randolph road within a few minutes after the polls closed Thursday afternoon.

J. G. Wellington, a saloon keeper, was riddled with buckshot from a repeating shotgun, and died almost instantly.

W. J. Cooke, watchman in a lumber yard, and acting as judge of election, was shot in the side and will die. He was taken to the city hospital.

B. E. Conn, another judge of election, was shot in the heel.

The trouble arose over the county election, which was held Thursday. Wellington insisted on being present at the count of ballots, and in an argument Wellington is said to have drawn a revolver and began shooting. According to the story told the police Conn rushed out of the polling place, secured a shotgun and began firing. The first shot fairly riddled Wellington with buckshot. Wellington kept on firing until he dropped, and when the smoke of battle cleared away Cooke was found on the floor desperately wounded, a bullet from Wellington's revolver having pierced his side.

## SERIOUS CHARGES.

Chairman Accused of Spiriting Away  
Party Making Assertion.

Minot, N. D., Aug. 3.—The preference of serious charges against B. S. Brynjolfson of Grand Forks, chairman of the Democratic state central committee, furnished the only exciting incident in the Democratic state convention. Silver Serungard, candidate for the Democratic nomination for governor, openly charged Brynjolfson with spiriting away George Wilkinson, who stated at the national Democratic convention in St. Louis in 1904 that the North Dakota delegation had sold out to Parker for \$1,000 each.

The charges precipitated a fight in the convention between Senator J. L. Cashel of Grafton and Brynjolfson for chairman of the new committee. Cashel won by a vote of 146 to 106. Brynjolfson denied the charges. John Burke was nominated for governor.

W. J. Bryan was endorsed for presidential nominee.

## MICHIGAN DEMOCRATS.

Endorse Bryan For Presidential Nominee and Select Ticket.

Detroit, Aug. 3.—Michigan Democrats, in state convention, nominated a ticket headed by C. H. Kimmeler for governor.

The platform, as adopted, declares that evils under the form of combinations and trusts are a direct outcome of class legislation by the Republican party conferring privileges upon corporations at the expense of the common people.

Bryan was endorsed for presidential nominee.

## TROOPS DESERT.

Frequent Occurrences of the Kind Reported to Authorities.

San Francisco, Aug. 3.—Reports are being received by military authorities at Presidio of frequent desertion of troops stationed at American Lake in Washington, the summer military camp, where several regiments of the National guard and regulars went for instruction. The most notable instance of this is in Company I of the Twenty-second Infantry. At present only seven men and officers are left to carry the name of this company. When the Twenty-second Infantry went into camp sixty-five men answered roll call in Company I. Since then fifty-eight of the soldiers deserted and crossed the border into Canada, sixty miles away, where there are no extradition laws to cover desertion.

## SHIPP RE-ELECTED.

Gets Largest Majority Ever Received by a Democrat.

Chattanooga, Aug. 3.—In Thursday's election Captain J. F. Shipp was re-elected sheriff of Hamilton county by the largest majority ever received by any Democrat, receiving 1,600 votes more than his Republican opponent. On account of the recent lynching of Ed Johnson and the citation of the sheriff to appear before the United States supreme court to show why he should not be declared in contempt of that court, the race had taken unusual interest.

### THE LAW ON "SECOND CHOICE."

County Delegations and not County Conventions Control the "Drop-ped" Vote.

The following letter from the assistant attorney general explains itself:

R. G. Maury, Houston, Texas. Aug. 1, 1906.—Dear Sir: I am in receipt of yours of the 31st, and in reply to your first inquiry, you are advised that the county convention of a county can not bind the delegation of the county, elected by it to cast its vote in the state convention, by instruction as to how this delegation shall cast its vote after first ballot, or the pro rata part of it which, on the first ballot, was cast for a candidate who was dropped on the second ballot. This is regulated by law, and the party for whom this vote will be cast on the second ballot must be determined by the delegation, and not by the county convention.

Replying to second question, you are advised that no more delegates can be sent to the state convention than the county has votes in that convention. Alternates can not be elected. If all of the delegates do not attend, the vote of the county must be cast by "such of them as may attend."

Yours truly, Claude Pollard, Office Assistant Attorney General. As the attorney general's ruling, in the absence of a judicial construction, is accepted by officers, including the various executive committees of the party, this settles the question of second choice instruction.—Houston Chronicle.

### YOUNG NEGRO WOMAN KILLED.

A young colored woman named Hattie Martin was shot and killed in the Reliance community Thursday, the charge from a shotgun passing through her head and literally blowing her brains out. A young negro named Will Kearney was arrested by C. A. Buchanan and brought in and lodged in jail. Kearney claims the shooting was accidental, and that he set the gun down and it fell and was discharged with the fatal result above indicated. It appears that the parties were alone at the house of a sister of the woman when the shooting occurred. One report says that there was a negro child present. Justice E. R. Lloyd of Kerten held an inquest, but his findings have not been announced so far as the Eagle has learned. The woman was a daughter of Mingo Martin.

Prof. Thomas is a graduate of the University of Texas and has had several years' experience as a teacher in the public schools of the state. He taught the past year at Victoria under Prof. Arthur Leffever, former superintendent of public instruction.

Two vacancies were filled at Prairie View normal. P. H. Brittain of Conroe, a graduate of Tuskegee Institute, was elected instructor in carpentry, and Aviola Ellis of San Antonio was elected an instructor in music.

The several other vacancies in the A. and M. College will be filled at an early date.

### GOVERNMENT HAS IT.

Sveaborg Fortress in Complete Control of Russian Authorities.

Helsingfors, Aug. 3.—Sveaborg fortress is completely in the hands of the government. Prisoners were marched out and sent to Skatudden island, where they await trial.

A Socialistic red guard Thursday evening made a last effort to bring about a general strike. They marched in force to the power house of the street railroad and ordered the men to strike. Upon refusal the guard attempted to destroy the building. Police and communal guards were summoned and a fight followed, resulting in the killing of the assistant chief of police and several communal guards and a number of red guards. Cosacks were summoned and separated the combatants. The red guard consists for the greater part of the Finnish proletariat, while the communal guards are made up of the middle and wealthy classes and organized to maintain order and protect property. They are armed with rifles and are under almost military discipline. The government is handling the situation carefully, fearing the movement may spread throughout the country. Cosacks are used only in extreme cases and then disperse crowds with more gentleness than they do in Russia.

It has transpired that the sharp firing heard from Sveaborg between 4 and 5 o'clock Thursday morning came from infantry reinforcements dispatched there for the purpose of constructing pontoon bridges from island to island, in order to protect fortifications from the mutineers. The troops were supported by a cannonade from the fortress on Sandhamm island. The attempt was successful and the government flag was hoisted at noon, showing that Sveaborg fortress is in the hands of Loyalists. Some 2,000 reinforcements of troops arrived at Helsingfors.

Telegraph lines were cut, severing connections with Viborg, and a small railroad bridge between here and Viborg blown up. The bridge was subsequently repaired.

Trains from St. Petersburg are arriving here after great delay. One of the railway bridges here has again been blown up with dynamite, but it was soon repaired.

Casualties at Sveaborg were many, but 500 is undoubtedly an unexaggerated number.

Officers' wives showed unerring devotion as nurses. Wounded mutineers suffered considerably, as there were but ill provided with medical supplies.

### CRIME PREVENTED.

Children at Philadelphia Being Operated Upon For This Purpose.

New York, Aug. 3.—A special to the Herald from Philadelphia says: Following the theories of the country's foremost physicians and the recent ruling of the juvenile courts the Pennsylvania Society to Protect Children From Cruelty, working in conjunction with Director Coplin of the bureau of health, has instituted the practice of performing operations upon the children given into his charge where medical opinion is that such a course is likely to prevent a criminal career.

The first subjects were operated on Thursday at the infirmary of the society. In all seven children were put under the knife by a number of the city's most prominent surgeons.

A number of other similar operations will take place soon.

Of 147 children examined 50 per cent were found to be suffering from imperfect refraction of the eyes. Glasses have been ordered for all of these.

### COOK EXPIRED.

Wellington, Who Was Killed, Had Been Indicted by Grand Jury.

Memphis, Aug. 3.—W. J. Cook, one of the judges of the election, who was shot in a row at the polls Thursday, died Friday. J. G. Wellington, who was killed on the spot, was recently indicted by the grand jury charged with running a disorderly house on Marble street. B. F. Conn, shot in the heel, was not seriously injured. Wellington, it is claimed, demanded to remain in the judge's room during the count. This was refused and a battle began.

The Democratic primaries for congressman of the Tenth district show General George W. Gordon and J. W. Apperson to be the leading candidates. They will run it off Aug. 11.

### MILLER DISMISSED.

His Former Suspension Brought About President's Open Shop Order.

Washington, Aug. 3.—W. A. Miller, assistant foreman in the government printing office, who was suspended by the public printer July 21 for insubordination and insolence, has been dismissed from the government service. Miller's former suspension in 1903 was the cause of President Roosevelt's order declaring the government printing office and all other offices where workmen are employed by the government to be open shops.

### Second Arrest.

Antlers, I. T., Aug. 3.—A second arrest was made by Frisco detectives in connection with the wrecking of the flyer Sunday in which the fireman was killed and engineer seriously wounded. Both men are in jail here. The prisoners were employed at a sawmill.

### Mill Burns.

Lufkin, Tex., Aug. 3.—Mill of the Angellina County Lumber company, near here, burned early Friday. No stock was destroyed. The mill, which was valued at \$25,000, was insured for \$17,000. It will be rebuilt.

### Average Condition of Cotton.

Washington, Aug. 3.—A statement issued at noon Friday by the crop estimating board of the department of agriculture shows the average condition of cotton July 25 to be 82.9.

# GO IT ALONE.

**Ohio Prohibitionists Separate Themselves From the Others.**  
Columbus, Aug. 3.—In state convention here Thursday the Prohibitionists practically divorced their party from other temperance organizations, condemning the Alkin \$1,000 saloon tax law and adopted a platform declaring for direct legislation, woman suffrage, international arbitration, election of United States senators by direct vote and a more rigid bank inspection.

# PEPYS AND EVELYN.

**Difference in Methods of These Two Famous Dramatists.**

Pepys' narrative is always dramatic—himself being the center of the play—while Evelyn is historical, pathetic or didactic, as the mood seizes him. Pepys gives us the comedy of his time, as Plautus and Terence gave us the comedy of theirs. Evelyn, on the other hand, has something of Livy in his composition and not a little of Cicero. Compare, for instance, their treatment of the great fire, and you may measure the distance between them. Thus it is that Pepys' account begins: "Some of our maids, sitting up late last night to get things ready against our feast to-day, Jane called us up about 3 in the morning to tell us of a great fire they saw in the city. So I rose and slipped on my nightgown and went to her window." And now turn to Evelyn and see the temper in which he views the destruction of the city. "The clouds of smoke were dismal and reached upon computation near fifty miles in length," he writes the day after the fire. "Thus I left it this afternoon burning, a resemblance of Sodom or the last day. It forcibly called to my mind that passage, 'Non enim hic habemus stabilem civitatem,' the ruins resembling the picture of Troy. London was, but it is no more!"

Pepys sets the scene before you like a man; Evelyn reflects upon the tragedy like a writer, ingenious in reference and quick with allusion. We need not discuss which is the better method, but it may surely be said that the world will produce another hundred Evelyns before it fashions a fitting rival for Pepys.—London Spectator.

# Nature's Methods.

When one is sick there is usually something in the stomach that nature wants to throw up. When one has diarrhea nature is striving to remove offending material from the system. When one perspires profusely nature is getting rid of blood poisons through the skin. One should never attempt to check any such effort without being sure that its arrest will be beneficial.

# The Alexandrian Era.

# JUSTICE TO JOHNSON.

**Mayor of Cleveland Has No Financial Interest in Railway.**

Cleveland, Aug. 3.—In the dispatches handled by the Associated Press on July 25, in describing the controversy now proceeding over the street railway situation in this city, the statement was made that the railway line of the Cleveland Electric company on Fulton street was torn up by men acting under the orders of Mayor Tom L. Johnson, and that this action was owing to the pending controversy in behalf of the Forest City railway, a 3-cent fare line, and which, under certain conditions, can come under the ownership and control of the municipality.

In addition to relating the facts as to the tearing up of the rails of the Cleveland Electric Railway company, the additional statement was made that Mayor Johnson "was credited with being largely interested in the Municipal Traction company."

This statement was unwarranted, and is believed to be entirely untrue. In its reading, it intended to create the impression that Mayor Johnson had any financial interest whatever in the Forest City company, and is contrary to every public statement made by that official, he having specifically anticipated by public announcement any such possibility. That he has been interested in the success of the company as an ultimate municipal ownership proposition, but primarily to secure a lower fare, he has openly proclaimed.

The Associated Press, therefore, desires to disclaim any knowledge or motive other than this public interest, and to disavow any other suggestion in making the statement telegraphed.

# TESTIMONY ENDS.

**Argument in Hartje Divorce Case to Begin Monday Next.**

Pittsburg, Aug. 3.—After twenty-one and a half days of sessions the Hartje divorce case terminated rather suddenly Thursday. With the consent of the attorneys, and at the suggestion of Judge Frazer, the time for beginning the arguments was set for next Monday morning. Judge Frazer announced before the close that the case must be submitted to him by Wednesday evening, as he intended to leave for his vacation next Thursday.

Immediately after the case was concluded Mrs. Hartje was surrounded by a group of friends, who shook her hand and congratulated her on the manner in which she held up under the severe strain. Augustus Hartje sat in his chair watching his wife closely. He, too, showed relief, but said nothing.

Grigsby, brother of the deceased, is named as executor without bond. The executor estimates the value of the estate at about \$500,000, consisting principally of money in bank and bank stocks. A large portion of the estate is in Dallas county.

The will provides that his just debts be paid, and that the sum of \$6,000 be expended by the executor in the payment of the funeral expenses of the testator's deceased wife and of himself and in the erection and building of a suitable vault for the remains of the two.

"All the rest and residue of my property, wherever situated, whether in possession, reversion or remainder, including one policy of insurance in the Equitable Life Insurance company for the sum of \$2,500 and three policies of insurance for \$5,000 each in the New York Life Insurance company, which were made payable to my said deceased wife, I hereby devise and bequeath to my sister, Mrs. J. H. Reib, of Lexington, Ky., to her and to her heirs and assigns forever."

The instrument was dated June 27, 1905.

# PRIMARY RETURNS.

**Chairman Andrews Wants Them Mailed to Him at Once.**

Houston, Aug. 3.—Chairman Andrews of the Democratic state executive committee asks that all county returns be mailed him on Saturday. The law requires that all returns be registered. He says the urgency of this request is to enable him to have the unofficial returns tabulated before the committee meets at Dallas on Aug. 13. "If I can get the returns promptly," says Mr. Andrews, "I can have the tabulation made up, and when the committee meets it can open the official returns and quickly verify the tabulation as required by law. Otherwise the temporary organization of the convention may be seriously delayed."

"The saints in Plymouth colony can be counted on the fingers," he said. "Some of the very elect were false to

their trust and used their positions to feather their own nests—false to the trust than any president of a modern insurance company. Within the first decade social vices infested the community: drunkenness, bickering, slander, licentiousness and even crimes against nature were common. All this took place in a community of very limited numbers. No New England village of today need fear comparison with the early Plymouth colony."
